

Environmental Justice Effects on TIP Capital Projects

High EJ Population
Moderate EJ Population
No significant EJ Population

(EJ populations are defined as low-income or minority populations living, working, or utilizing the surrounding geographical area)

Significant Benefit Expected
Minor Benefit Expected
No Tangible Benefit Expected
Minor Burden Expected
Major Burden Expected

(Benefit/Burden is defined as how the proposed improvement would affect an EJ population)

MPMS	Project	EJ Pop. Benefit		Justification
88482/ 88483	SR 2102/Clintonville Road BridgeRehabs Over I-79			No significant EJ population nearby
78923	SR 1001/Fredonia Road Bridge Rehab Over Little Shen. River			No significant EJ population nearby
1463	SR 1008/District Road Bridge Preservation Over Otter Creek			No significant EJ population nearby
97272	SR 18/Shenango River Bridge Rehab			No significant EJ population nearby; assumed moderate use by EJ commuters
99878	SR 18 Paving from Romain to Wilson Road			Limited EJ population nearby; project is simple resurfacing
97322	SR 19 Bridge Replacement over Munnell Run			No significant EJ population nearby
68685	SR 19 Bridge Replacement Over Black Run			No significant EJ population nearby
90031	SR 19 Bridge Replacement over Otter Creek Tributary			No significant EJ population nearby
95568	SR 19/62/58/North Street 5 Leg Intersection Improvement			Moderate EJ population; Although not the primary goal of the project, it will help establish safer pedestrian crossing at busy intersection.
90033	SR 208 Bridge Replacement Over Black Run			No significant EJ population nearby
98026	SR 3006/Roemer Boulevard Resurfacing			High EJ Population, but project is simple resurfacing and shouldn't therefore have major effect on the population
102554	SR 3008/State Street Improvements at Ellis and Kerrwood			Project will dramatically improve ped. accommodations in this vicinity. Relatively low EJ pop., but many jobs and daily needs are located here.
96362	SR 3008/State St. Streetscape Imprvmnts.-Oakland to Forker			Project will dramatically improve pedestrian safety and mobility in a high EJ population area.
1923	SR 318-West Middlesex Viaduct Replacement			Bridge is important means of access between two communities with moderate EJ populations
98025	SR 3012/Clark Street Restoration			Moderate EJ population but project scope is limited to restoration of the roadway. May be a very minor benefit, and improve access to jobs
98024	SR 3016/Hazen Road Resurfacing			No significant EJ population nearby, and project scope is limited to roadway resurfacing.
69966	SR 718/Broadway Avenue Phase II			Project is along main corridor in very high EJ community; imprvmnts. for motorized and non-motorized modes of transportation
97276	SR 4002/Carlisle Road Brdge Rehab Over Booth Run			No significant EJ population nearby
1475	SR 4002/Coal Hill Rd. Bridge Preservation Over Big Run			No significant EJ population nearby
82938	SR 1014/Georgetown Road/I-79 Bridge Preservation			No significant EJ population nearby
89171	SR 58 Restoration Between Greenville and Jamestown			No significant EJ population nearby, and project scope is limited to roadway resurfacing.
88486	SR 62/Franklin Rd. Bridge Rehab Over Spring Creek			No significant EJ population nearby
98022	SR 760/Broadway and Bvr. Valley Expressway Resurfacing			Moderate EJ population nearby; project is simple resurfacing
97667	SR 846 Safety Improvement--Repair of Earth Slide			No significant EJ population nearby
82939	SR 2019 over I-79 Bridge Rehabilitation			No significant EJ population nearby
98030	SR 208 Resurfacing from SR 258 to Gregg Street			Moderate EJ population nearby; project is simple resurfacing
74687	SR 4016/Kennard Road Bridge Rehabilitation			No significant EJ population nearby
95415/ 102638	Purchase SVSS Bus			Improving fleet/conditions for transit riding population; typically reside in EJ areas and are lower income than average
102639	Replace Transit Vans			Improving fleet/conditions for transit riding population; typically reside in EJ areas and are lower income than average
87936	Transit Enhancement Project--shelters, signage, route improvements			Improving transit access and comfort for high EJ populations
77148	Transit ADA Related Expenses			Project will greatly improve mobility for population with disabilities, thus improving access to transportation
95413/8 3656-8	Office and Garage Improvements/Equipment Upgrades			Project will affect transit staff, not users of system
95412	Transit Safety and Security Improvements			Project will add to safety and well-being of transit riders
