

## List of Major Projects from the Previous TIP That Were Implemented or Delayed

The previous (2019-2022) SVATS MPO TIP contained several projects of regional significance. All of these projects were either completed or are currently underway using funding from the 2021-2024 TIP as well as the previous TIP. No projects from the previous TIP have significant delays, beyond how they were initially programmed.

Major Projects from the 2019-2022 TIP are defined as those in excess of \$2.5m. Only three such projects met this definition as shown in the table below:

SR	Project Title	Municipality	FY 19-22 Cost	Scope of Work	Project Status
PA 18	SR 18: Birchwood to Rutledge	Pymatuning	\$3.8m	Roadway restoration	Under Construction
US 62/ PA 3008	US 62/State Street Intersection	Hermitage	\$3.2m	Intersection improvement (roundabout)	Under Construction
PA 318	West Middlesex Viaduct	West Middlesex	\$2.8m	Replacement of Bridge over Shenango River	Complete

Three other projects (MPMS # 1671, 109154, and 109146) were less than \$2.5m but greater than \$2m. All three of these projects contain funding on the FY 2021-2024 TIP. All three projects are underway but none are quite yet under construction as of May 2020.
