

Air Quality Conformity Memo

There are no changes to the existing approved conformity determination for the SVATS MPO. The FFY 2017-2020 TIP has undergone interagency consultation among PennDOT, the Pennsylvania Department of Environmental Protection (DEP), Federal Highway Administration (FHWA) and the Environmental Protection Agency (EPA) and the following criteria have been met:

- 1. No regionally significant project has been deleted from the SVATS MPO TIP or LRTP.*
- 2. No phase of a regionally significant project has been rescheduled to cross a prior analysis year.*
- 3. No change in the scope has been made to a regionally significant project.*

Therefore, a new conformity analysis for the SVATS MPO FFY 2017–2020 TIP does not need to be performed. The prior air quality reports are still valid.
